

# Clinical Trials BC

Part of the British Columbia Academic Health Science Network (BC AHSN)

## About Us:

Clinical Trials BC advances British Columbia's development as a world-class destination for clinical trials across our province's hospitals, research institutions and communities. Our mission is to maximize the health, educational, and economic benefits of clinical trials to the citizens of BC.

## What We Do:

We contribute to national and international clinical research communities, and connect with governing bodies and forums.

### Clinical Research Navigation

- Business development opportunities
- Global marketing of BC's clinical trials excellence
- Facilitating connections and partnerships

### Professional Development and Training

- Provincial access to online clinical research tools, resources and e-learning programs
- Professional certification support and guidance
- Site education and training

### Regulation and Quality Assurance

- Regulatory, compliance and quality consulting
- Quality Management System (QMS) framework, implementation and support
- Audit and inspection preparation
- Program Implementation

### Improve Participant Experience

- Generating data/knowledge on patient/participant experience
- Engaging with partners to advance clinical trials practice improvements

### Program Development and Support

- Workforce innovation and mentoring
- Program development planning
- Strategic planning and infrastructure initiatives
- Clinical Trial Management System (CTMS)

Alison Orth, Unit Director

Jean Smart, Regulatory Affairs & Quality Officer
